

Longer Lasting, Higher Security, Better Looking & More Thermally Efficient, Than Ever Before

- 1 High Strength Shootbolts**
Prevent the window from being jimmied open.
- 2 Up to Four Cams** Draw the window in tightly giving superior compression, unrivalled weathertightness, smooth operation & improved security. Also enable night vent facility.
- 3 Anti Jemmy Claw Locks (Optional)**
Enhanced security to prevent windows being jimmied open on the hinge side
- 4 High Security Hinges**

Welded in Anti Shrink Weatherseals

Prevents the weatherseals from shrinking back over time which dramatically improves long term weathertightness & thermal efficiency.

Low Line Invisible Weatherseals

Eliminates the unsightly look of black or white weatherseals visible on most of our competitors products.

Thermal Plus Low Emissivity Glass

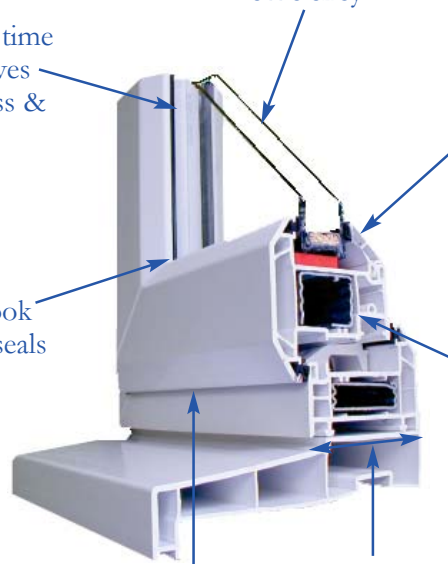

Long lasting with unrivalled thermal efficiency.

Glazed Internally

The ultimate in high security as the glass can not be removed from the outside, unlike external glazing.

Galvanised Steel Reinforcement

To British Standards guidelines for exceptional strength and long term performance.

Higher Gloss Ultrawhite Finish

Repels dirt and makes the PVCu easier to clean.

70mm Window Depth

The perfect replacement for wooden windows resulting in a cleaner installation.

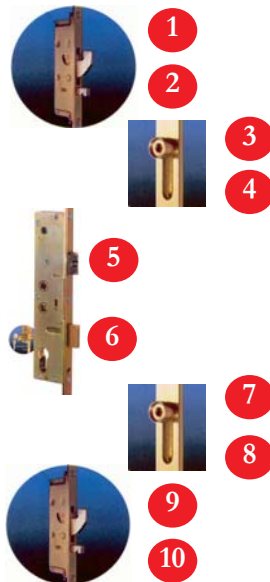

Longer Lasting, Higher Security, Better Looking & More Thermally Efficient, Than Ever Before

Our innovative range of doors accommodate the latest security systems available. The combination of hook bolts, antilift bolts and a centre deadbolt results in unrivalled security.

Our patented roller cams have been designed to provide a smooth locking action, durability and weathertightness.
